

COURIER POINTS.

Undisputed fiction soon becomes history.

Honest victories are not won by dodging issues.

Married life is a plain salad that needs a tip top dressing.

When a matrimonial match is struck some one usually gets burned.

In this world you get kicked for being poor and cursed for being rich.

Garters would make some women blush as much as any other name.

When a fellow falls in love with a girl, he can easily get out of it—marry her.

People who have no sons are always chock full of advice about how to raise boys.

It has been noticed that nothing makes a woman laugh so much as filled teeth.

Fathers, who buy good books, seldom have to search the police court for wayward sons.

Some giddy girl who talks of having seen but 20 summers ought to consult an occultist.

It does not take a boy long to decide which his father loves best, the son or the horse.

Most women would despise themselves if they were as innocent as they pretend to be.

To the boy in love for the first time it does not look like woman is vanity and vexation of spirit.

A woman doesn't have to have very big feet to get mad about some other woman's small ones.

The little brown jug seen under the seat of a farmer's wagon does not always contain molasses.

Husbands who expect to get to heaven on the piety of their wives are going to be sadly disappointed.

Some people contribute to charity like a streetcar conductor collects a fare—with the ringing of a bell.

An old maid may console herself with the thought that she is leading a heavenly life, as there are no marriages in heaven.

If a woman begged her husband to drink whiskey the way she does to go to church, probably he'd be a Prohibitionist.

It is mighty hard for boys to work on the farm and work hard, when they see town dudes loafing and smoking cigars.

When a girl is chased by a man who is trying to kiss her, she either crouches down on the nearest sofa or runs into a corner.

Many people pursue a wrong course knowingly, and when trouble comes because of it excuse themselves, saying: "It is destiny."

The Breath of Life.

It's a significant fact that the strongest animal of its size, also has the largest lungs. Powerful lungs mean powerful creatures. How to keep the breathing organs right should be man's chiefest study. Like thousands of others, Mrs. Ora A. Stephens of Port Williams, O., has learned how to do this. She writes: "Three bottles of Dr. King's New Discovery stopped my cough of two years and cured me of what my friends thought consumption. O, it's grand for throat and lung trouble." Guaranteed by E. W. Herring, druggist. Price 50c and \$1.00. Trial bottle free.

It is a well-known medical fact that pine resin is most effective in the treatment of diseases of the bladder and kidneys. Sufferer from backache and other troubles due to faulty action of the kidneys find relief in the use of Pine-ules. \$1 pays for 30 days' treatment. Sold by E. W. Herring.

The Tribune says that Knight & Rucker's store at Triplett, had a small blaze Monday evening about 7 o'clock. Lace curtains got afire from a coal oil lamp. It was discovered at once and extinguished before it had time to spread.

Bee's Laxative Honey and Tar, the original laxative cough syrup, acts as a cathartic on the bowels. It is made from the tar gathered from the pine trees of our own country, therefore is the best for children. It is good for coughs, colds, croup, whooping cough, etc. Try our free offer. Sold by E. W. Herring.

A man has to have a good temper not to get mad with himself for thinking of a good lie he might have told his wife only after a poor one to explain why he got home so late.

Manzan relieves instantly the pain caused by those blind, bleeding, itching and protruding piles. It is put up in collapsible tubes in such a way that it can be applied where the trouble originates, thus stopping the pain immediately. Try one bottle and if you are not relieved, your money will be refunded. Try our free offer. Sold by E. W. Herring.

It is very comforting to a woman to think what a good daughter she would have been to her parents if she hadn't her own children to look after.

The man who would depend upon a trust beneficiary to demolish the trusts is just the kind of a man to set a fox to guarding his poultry.

It always seems like a miracle to a man the way a woman will manage a big hat, a long skirt, a bundle of her religion in a high wind.

Every Niece and Nephew of Uncle Sam

should be deeply interested in what he has said about soda crackers, because they are the one food with which all of them are familiar.

Uncle Sam has given out figures showing that soda crackers are richer in nutriment and body-building elements, properly proportioned, than any food made from flour.

This is saying much for common soda crackers, and much more for **Uneeda Biscuit**, because they are soda crackers of the best quality. They are baked better—more scientifically. They are packed better—more cleanly. The damp, dust and odor proof package retains all the goodness and nutriment of the wheat, all the freshness of the best baking, all the purity of the cleanest bakeries.

Your Uncle Sam has shown what food he thinks best for his people. His people have shown that they think **Uneeda Biscuit** the best of that food, nearly 400,000,000 packages having already been consumed.
